Idaho Governor's Office of Energy Resources

OER Awarded Grant to Develop Statewide Wood Energy Team

The Idaho Governor's Office of Energy Resources (OER) is pleased to announce the procurement of a United States Department of Agriculture (USDA) Forest Service competitive grant to develop a collaborative, statewide wood energy team that will advance the installation of commercially viable wood energy systems across Idaho.

The OER is partnering with the Idaho Department of Lands, Idaho Department of Commerce, the Idaho Woody Biomass Utilization Partnership, and Sustainable Northwest; in addition to several other Idaho communities, counties, and collaborative groups on this opportunity. The main focus of the proposed activities is to provide education, outreach, and technical assistance to Idaho's rural communities to advance wood energy systems throughout the state.

To learn more about OER and our programs please contact the Idaho Governor's Office of Energy Resources at 208-332-1660 or visit the OER website at www.energy.idaho.gov.
